

WELLINGBOROUGH **W P**ARTNERSHIP

the Local Strategic Partnership for Wellingborough

Wellingborough Vision

Wellingborough – *The place to be. At the heart of Northamptonshire where we are proud to be. The place where all have high aspirations, all are encouraged to achieve them and the potential is realised for the whole community. The place where we lead in quality businesses and the environment. The place where communities are sustainable, healthy, safe and prosperous.*

Wellingborough - the excellent place where:

- everyone respects others, their moral and ethical values, and all are equal in an active, culturally diverse and cohesive community
- businesses prosper increasing the range of business type and the wealth generated
- there are learning and job opportunities that meet the needs for all
- the environment, both natural and built, is continually enhanced
- there are open spaces and leisure facilities for all
- good transport links exist throughout the area
- all services are accessible
- the prime location is used to advantage
- life expectancy is high and local health services are there to serve individual needs
- everyone feels and is safe

Wellingborough - this IS the place to be.

The objectives and target to work towards this Vision can be found in the Community Plan.
